

HazardMon.com

Cloud Based Hazard Monitoring

**NEW
PRODUCT**

OVERVIEW

HazardMon.com is a secure cloud based hazard monitoring system providing notifications and logging of your plant's health. Live system status, graphs and historical data can be viewed on any web-enabled device (smartphone, tablet PC, desktop or laptop computer). Emails can be sent to notify users whenever a change in the system's health is detected.

FEATURES

- ▶ Alert Email Notifications
- ▶ Real Time System Status
- ▶ Data Logged Automatically
- ▶ Password Protected Network
- ▶ Constantly Evolving

For a free demo account, visit www.hazardmon.com and see what the cloud can do for you!
