

HOW TO MEASURE YOUR ELEVATOR BUCKET

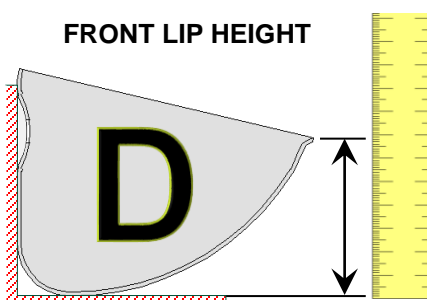

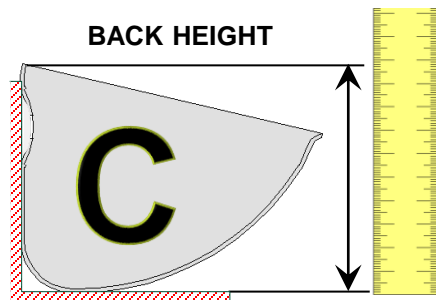

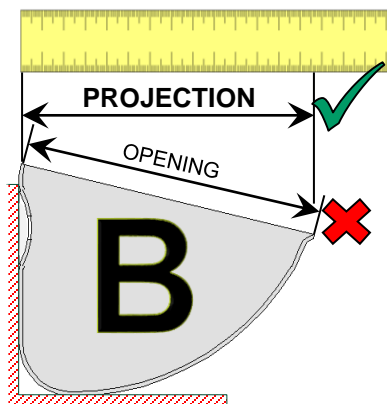

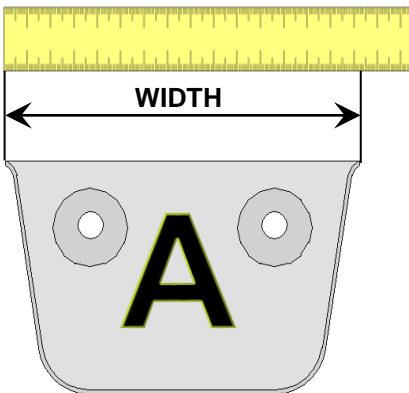

4B Group

Company	
Contact	
Bucket Qty	

Insert dimensions here:

A	B	C	D	No. of Holes	ØE
F	G	T	Material	Hole Type	
				Flat <input type="checkbox"/>	Recessed <input type="checkbox"/>

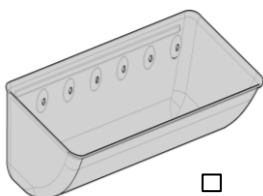

Hole Pattern	
In line	<input type="checkbox"/>
Other	<input type="checkbox"/>

Ensure horizontal projection is measured, not the opening of the bucket.

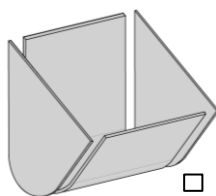

When measuring dimensions B, C and D ensure the bucket is on a flat surface and the bucket back face is positioned vertically.

T: using a micrometer, measure the thickness of the bucket

Select bucket style:

Pressed Seamless

Fabricated (Welded)

Select bucket shape closest to yours:
